Patient Fees, Billing, Insurance and Hospital Services Guide

Document ID CGH-ADM-011. Version 1.0. Effective 1 January 2026. Owner: Patient Services and Finance Office, CareOps General Hospital.

1. Purpose and scope

This guide explains the fees, charges, billing process, insurance and cashless procedure, visiting rules, medical records and patient services at CareOps General Hospital. CareOps General Hospital is a fictional hospital, so every amount in this guide is a synthetic tariff created for the CareOps AI prototype and is not the price list of any real hospital. All amounts are in Indian rupees, written as Rs. This guide covers administration and patient services only and does not contain medical advice.

2. Registration and outpatient consultation fees

A new patient pays a one-time registration fee of Rs 100 and receives a hospital number. The registration is valid for 1 year and is renewed for Rs 50 after that. A general physician consultation costs Rs 400. A specialist consultation, for example orthopedics, pediatrics, or obstetrics and gynecology, costs Rs 700. A super-specialist consultation, for example cardiology, costs Rs 1,000. A teleconsultation costs Rs 300. A follow-up visit to the same doctor within 7 days of the first visit is free. Senior citizens aged 60 years or above receive a 10 percent discount on consultation fees. The outpatient department works from 08:00 to 20:00 from Monday to Saturday and is closed on Sundays.

3. Emergency Department charges

The Emergency Department is open 24 hours a day, every day. An emergency consultation with triage costs Rs 800. An emergency patient is never refused first treatment or stabilisation because of lack of money or deposit. Payment is discussed only after the patient is stable. An observation bed in the ED is charged at Rs 250 per hour for up to 6 hours. If the patient stays longer than 6 hours or is admitted, the stay is converted to the inpatient room charge of the ward where the patient is admitted, and the ED observation hours are not charged again.

4. Inpatient room charges per day

Beds at CareOps General Hospital are charged per day and not per hour. A billing day runs from 12:00 noon to 12:00 noon the next day. The room charge includes the bed, routine nursing care, meals for the patient and routine housekeeping. It does not include doctor visits, medicines, tests, procedures or consumables. The daily room charges are as follows. A general ward bed in a shared ward costs Rs 1,500 per day. A semi-private room with 2 beds costs Rs 3,500 per day. A private single room costs Rs 6,000 per day. A deluxe room costs Rs 9,000 per day. An isolation room costs Rs 7,000 per day. An ICU bed, including the Medical ICU, Surgical ICU and Cardiac ICU, costs Rs 12,000 per day. A Neonatal ICU bed costs Rs 10,000 per day.

A consultant doctor visit costs Rs 600 per visit in the general ward and Rs 1,000 per visit in other room categories. In the ICU, the consultant visit charge is included in the ICU daily charge.

5. Diagnostic test and imaging charges

The following charges apply for outpatients and inpatients. A complete blood count costs Rs 300. A blood glucose test costs Rs 80. A liver function test costs Rs 600. A routine urine test costs Rs 150. An ECG costs Rs 250. An X-ray costs Rs 400. An ultrasound costs Rs 900. A plain CT scan costs Rs 3,500. An MRI scan costs Rs 7,500. Contrast material for CT or MRI is charged extra at actual cost. Urgent STAT tests from the Emergency Department are not charged an extra fee for being urgent.

6. Surgery, delivery and procedure packages

Planned surgeries are offered as fixed packages after the surgeon gives an estimate. A minor surgery package costs between Rs 15,000 and Rs 40,000. A major surgery package costs between Rs 60,000 and Rs 200,000, depending on the surgery. A normal delivery package costs Rs 30,000 and a caesarean delivery package costs Rs 60,000. A package includes the operating theatre, the surgeon and anaesthesia fees, routine consumables and the stay in the general ward for the number of days written in the package. A package does not include ICU stay, implants, blood products, medicines beyond the package list, or complications that need extra treatment. The package estimate is given in writing and the patient signs it before admission.

7. Ambulance charges

The hospital ambulance is available 24 hours a day. A Basic Life Support ambulance costs Rs 1,000 for up to 10 kilometres. An Advanced Life Support ambulance with a ventilator and cardiac monitor costs Rs 2,500 for up to 10 kilometres. Each additional kilometre beyond 10 kilometres costs Rs 50. To request the hospital ambulance, call the Emergency Department on internal extension 2000 or use the national ambulance numbers 102 or 108.

8. Admission deposit

For a planned admission, an advance deposit is collected at the time of admission. The deposit is Rs 10,000 for the general ward, Rs 20,000 for a semi-private room, Rs 30,000 for a private or deluxe room, Rs 30,000 for an isolation room and Rs 50,000 for the ICU or Neonatal ICU. Patients who have cashless insurance approval do not pay the deposit for the approved amount. The deposit is adjusted in the final bill. Any unused balance is refunded within 7 working days of discharge to the same account or payment method that was used to pay.

9. Billing process and payment methods

An interim bill is given to the patient or attendant every 24 hours for inpatients. The final bill is prepared after the doctor completes the discharge order. The inpatient billing desk on the ground floor works 24 hours a day, every day. The outpatient billing counters work during outpatient hours, from 08:00 to 20:00, Monday to Saturday. The hospital accepts cash, debit and credit cards, UPI and net banking. The patient can ask for an itemised bill that lists every charge. The pharmacy sells medicines at the maximum retail price printed on the pack and not above it. If the patient finds an error in the bill, the patient can raise it at the billing desk and the Finance Office reviews it and replies within 3 working days.

10. Health insurance and cashless treatment

The hospital works with insurance companies and third party administrators for cashless treatment. For a planned admission, the insurance desk sends the pre-authorisation request on the day the admission is decided, and the first reply from the insurer is usually received within 4 hours. For an emergency admission, the insurer must be informed within 24 hours of admission and treatment is not delayed while waiting. At discharge, the final approval from the insurer normally takes 2 to 3 hours. The patient should bring the insurance card, a government photo identity proof and the doctor admission note. Items that insurance does not cover, such as some consumables and personal items, are paid by the patient. If the insurer rejects or reduces the claim, the patient pays the difference. In this prototype profile the hospital is also empanelled for the government schemes Ayushman Bharat PM-JAY and CGHS. According to public information, PM-JAY offers health cover of up to 5 lakh rupees per family per year. Patients under these schemes should bring their scheme card and identity proof to the insurance desk.

11. Discounts and financial assistance

Senior citizens aged 60 years or above receive a 10 percent discount on outpatient consultation fees. Patients holding a Below Poverty Line card receive a 50 percent discount on general ward room charges. The Patient Welfare Fund can give partial or full help with the bill for patients who cannot afford treatment. The patient or family applies at the Patient Relations Office with an income proof, and a committee decides within 3 working days. Hospital employees and their immediate family members receive a 20 percent discount on room charges and consultation fees.

12. Planned admission procedure for patients

A patient advised admission by a doctor first completes registration if the patient is new. The admission counter checks the patient identity proof, the doctor admission advice and the insurance papers, and explains the estimated cost. The patient or family signs the consent for admission and treatment. The patient is then taken to the ward by a ward attendant after the Bed Manager assigns a bed. Admission for planned patients is done between 08:00 and 20:00. Emergency admissions are done at any time through the Emergency Department.

13. Visiting hours and visitor policy

In general wards and private rooms, visiting is allowed from 11:00 to 12:00 and from 17:00 to 19:00. Only 2 visitors are allowed at a time for each patient. Each patient is given one attendant pass, and the attendant may stay with the patient at all times. In the ICU, visiting is allowed from 12:00 to 12:30 and from 18:00 to 18:30, one visitor at a time, for about 10 minutes. In the Neonatal ICU, only the parents are allowed to visit, at times given by the unit. Children below 12 years are not allowed in the ICU, the Neonatal ICU or the Isolation Unit. Visitors must clean their hands on entry and wear a mask in isolation areas. In the Emergency Department, one attendant per patient is allowed.

14. Medical records, certificates and discharge summary

A discharge summary is given free of charge at the time of discharge. A patient can request a copy of medical records at the Medical Records Office on the ground floor, which works from 09:00 to 17:00 on working days. Records are given within 72 hours of the request, and the charge is Rs 5 per page. A fitness certificate costs Rs 300. A medical certificate for leave is issued free by the treating doctor for the period of treatment. Birth and death certificates are

issued by the hospital registration office, and the family must bring a government identity proof and the hospital documents.

15. Pharmacy, laboratory and diagnostic collection

The central pharmacy and the Emergency Department satellite pharmacy work 24 hours a day. Discharge medicines are prepared within 60 minutes of the discharge order. The laboratory works 24 hours a day. Routine outpatient reports are ready the same day, and urgent tests from the Emergency Department are reported within 60 minutes. Radiology reports for outpatient scans are ready within 24 hours.

16. Patient rights and grievance process

Every patient has the right to respectful care, privacy, confidentiality of records, information about the diagnosis and treatment plan in a language they understand, an estimate of costs, a second opinion, and refusal of treatment after being informed of the consequences. The hospital displays its tariff at the billing and admission counters. A patient who has a complaint can use the complaint box on each floor, speak to the Patient Relations Officer, or dial internal extension 5000. The complaint is acknowledged within 48 hours and a written reply is given within 7 working days.

17. Helpdesk and internal extension numbers

The main reception and information desk is on the ground floor and works 24 hours a day on extension 1000. The Emergency Department is on extension 2000. The billing and insurance desk is on extension 3000. The Bed Manager is on extension 4000. The Patient Relations Officer is on extension 5000. The Medical Records Office is on extension 6000. The pharmacy is on extension 7000. These are internal hospital extensions and can be reached from any hospital phone or through the main reception.

18. Frequently asked questions

How much does a bed cost per hour? Beds are not charged per hour. Beds are charged per day, from 12:00 noon to 12:00 noon. The only hourly charge is the Emergency Department observation bed, which costs Rs 250 per hour for up to 6 hours.

What is the doctor consultation fee? A general physician costs Rs 400, a specialist costs Rs 700, a super-specialist costs Rs 1,000 and a teleconsultation costs Rs 300. A follow-up within 7 days is free.

What is the ICU charge per day? An ICU bed costs Rs 12,000 per day and a Neonatal ICU bed costs Rs 10,000 per day. The daily ICU charge includes the consultant visit.

How much is the general ward bed charge? A bed in the shared general ward costs Rs 1,500 per day. A semi-private room costs Rs 3,500, a private room Rs 6,000 and a deluxe room Rs 9,000 per day.

How much is a CT scan or an MRI? A plain CT scan costs Rs 3,500 and an MRI costs Rs 7,500. Contrast is extra.
